

## Contractor Fraud Checklist

Contractor fraud is abundant following a disaster. Eliminating contractor fraud helps mitigate setbacks and delays.

Here are some helpful tips to help speed recovery.

### Step 1

### Licensure / Insurance

It is critical that your contractor is licensed and insured to perform this work. Ask the contractor to send you a copy of each document prior to your first meeting. This will ensure you are wasting time meeting with unqualified contractors.

After you request the information, **if you answer NO to any of these questions, DO NOT USE the contractor.**

- Contractor's Business Name?
- Contractor's Full Name?
- License Number, exp date?
- Do you have a copy of the contractor's business license?
- Do you have a copy of the contractor's identification?
- Does the contractor have workers compensation insurance?
- Do you have a copy of the documentation?
- Does the contractor have proof of insurance?
  - Insurance carriers name: \_\_\_\_\_
  - Insurance Agent's Name: \_\_\_\_\_
  - Policy Number: \_\_\_\_\_
  - Phone Number: \_\_\_\_\_
- Do you have a copy of proof of insurance?

**Do not rush this process!**

It is important to have everything in order before proceeding. If you have answered **NO** to any of the above questions, **DO NOT** use the contractor. Contractor fraud comes in many shapes and forms, so make asking questions a priority.

Always verify a contractor's license and insurance. Never use a contractor who has expired licenses or insurance.

States that require contractors to be licensed by the state will have a publicly available online database of licensed contractors. Visit your state's website and search "licensed contractors" for more information. To check local licensing requirements, call your local government's permitting office or information line/2-1-1.

## Contractor Fraud Checklist

Contractor fraud is abundant following a disaster. Eliminating contractor fraud helps mitigate setbacks and delays.

Here are some helpful tips to help speed recovery.

### Step 2

### Bids and Estimates

Ask the contractor many questions during this stage. If you feel at all uncomfortable with any of the answers to these questions, or **if any of your answers to any of the questions are NO, do NOT proceed with this contractor.**

- First, is the bid broken into labor and material costs?
- Is the scope of work on paper?
- Does the scope of work include:
  - The contractor performing an extensive walk through of our home?
  - A list of the specified materials the contractor intends to use?
  - A timeline for how long the work will take?
- Did you obtain multiple bids? If so:
  - Have you compared price per square foot from multiple bids?
  - Have others looked at bids to see if pricing is accurate/average in regard to the market rate?
- Have you asked the contractor to provide you with three references from recent jobs?
- Have you contacted these three references, and do you feel comfortable with their endorsement?

### Step 3

### Contract Details

Take your time during this step. If you feel at all uncomfortable with any of the answers to these questions, do not hire this contractor.

Again, at the end of this step, **if you cannot check all of the boxes, do NOT proceed with this contractor.**

- Have you read the entire contract?
- Are the following elements in the contract?
- Punch list: Walk through with contractor and build a punch list of all the final project items to complete before finishing the job.
- Home inspection: Build in a requirement of a home inspection by a third party before final installation of payment (10%). The building must meet all relevant codes and standards in order for the contractor to receive payment. The cost of this inspection falls to you, the homeowner; however, it is worth the investment. Only after successful completion of the entire punch list and home inspection will the final 10% be awarded to the contractor.
- Release of Lien: Have contractor sign a Release of Lien document to release the homeowner of liability to subcontractors and vendors.
- Have you agreed upon a payment structure? We strongly recommend “progress billing” or payments in stages as the work is completed to your satisfaction, and never pay 100% upfront.
  - Is the down payment less than 30%?
  - Have you clearly identified progress points for payment/construction? We recommend no more than 30% up front for the first three stages, with a 10% installation after punch list items are complete. **Make sure that payment is accepted by check or credit card (DO NOT PAY IN CASH!)**
  - Is there a warranty for their work (typically 1-3 years)?
